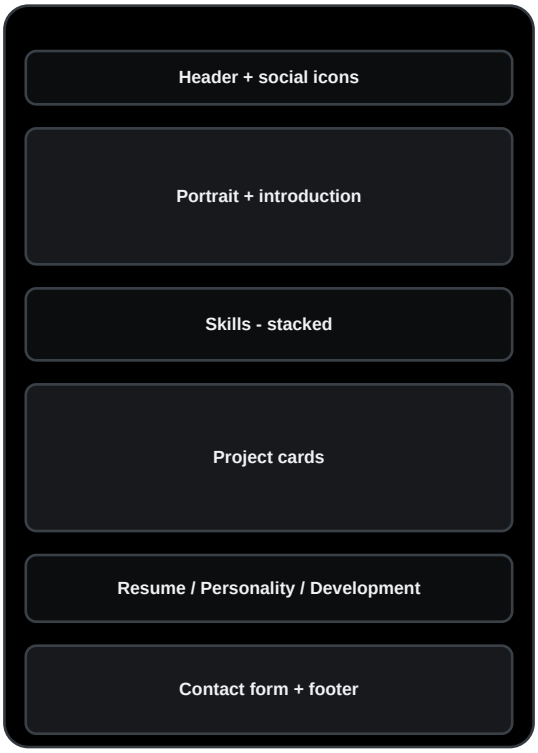
IA-1 Personal Portfolio Documentation

1. Storyboards

The boards show the portfolio homepage at two target widths. The 600px mobile plan follows a vertical reading order. At 950px, the profile and contact regions use the available horizontal space while the site sections remain in the same order.

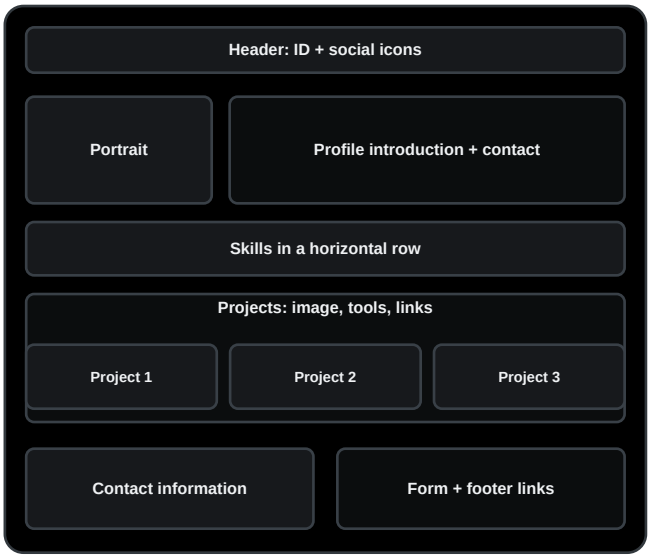
MOBILE - 600px VIEWPORT

Single-column flow; stacked sections and touch-friendly links.



DESKTOP - 950px VIEWPORT

Wider profile and project regions; shared section order.



Schematic based on the supplied IA#1 page structure; desktop spacing is adapted to the wider viewport.

Layout notes: maintain the dark background, high-contrast headings, legible body copy, consistent spacing, responsive images, and visible links between Home, Resume, Personality, and Development.
